

## Welcome to the Scott County Cornet Caper!

### ***Solve a mystery! –Discover our history!***

What if thieves broke into the Putnam Museum? What if they took a beloved regional icon? What if they hid clues throughout Scott County and only by solving them could the artifact be recovered? Do you know your regional history and county landmarks well enough to solve the mystery? If so, break out your (gum)shoes, camera and internet connection and put your crime-solving skills to work. Be on the lookout at [www.putnam.org](http://www.putnam.org) for the crime in January, 2012 with new clues each month through December. We hope you'll join us in solving ***The Scott County Cornet Caper***. (note; all references to crime and theft at the Putnam are part of a gaming experience and not fact). Participants are eligible for monthly prizes as well as a grand prize.

To play: Watch for clues on the website...in writing, puzzles, videos and more. Solving the clue will reveal a location in Scott County. Take your family or friends to the location, snap a photo of yourself at the site and email it to [education@putnam.org](mailto:education@putnam.org). The first 50 photos submitted each month will receive a prize with a grand prize offered for one lucky participant who solves the most clues. When new clues are released, the former clue answers will be revealed. Play once or stay with the game – the choice is yours! Good luck, Gumshoes. We're counting on you!
